# WonderBotz Filter

## User Instructions

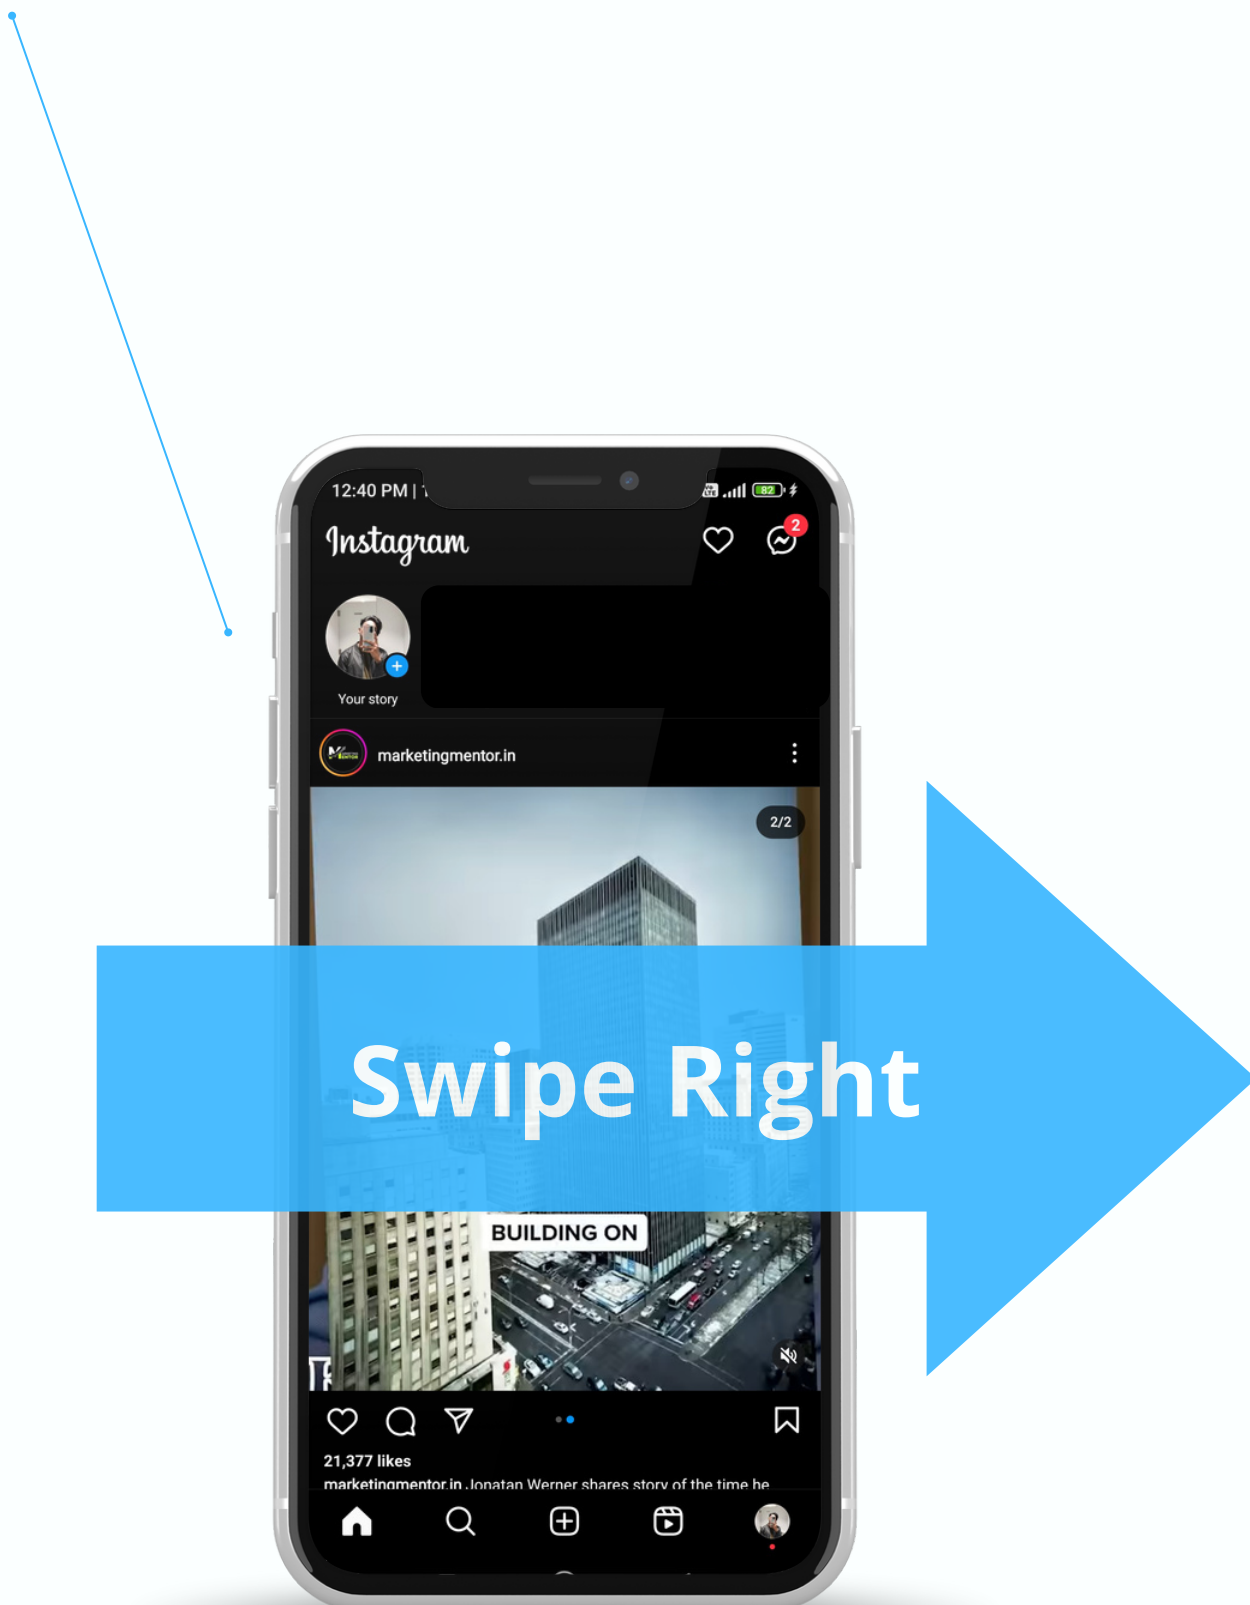

### Step 1: Open Instagram

Make sure you have the Instagram app installed on your smartphone. Launch the app and log in to your Instagram account.

## Step 2: Access the camera screen

Tap on the camera icon located at the top left corner of the app's main screen. Alternatively, you can swipe right from your feed to access the camera screen.

### Step 3: Explore filters

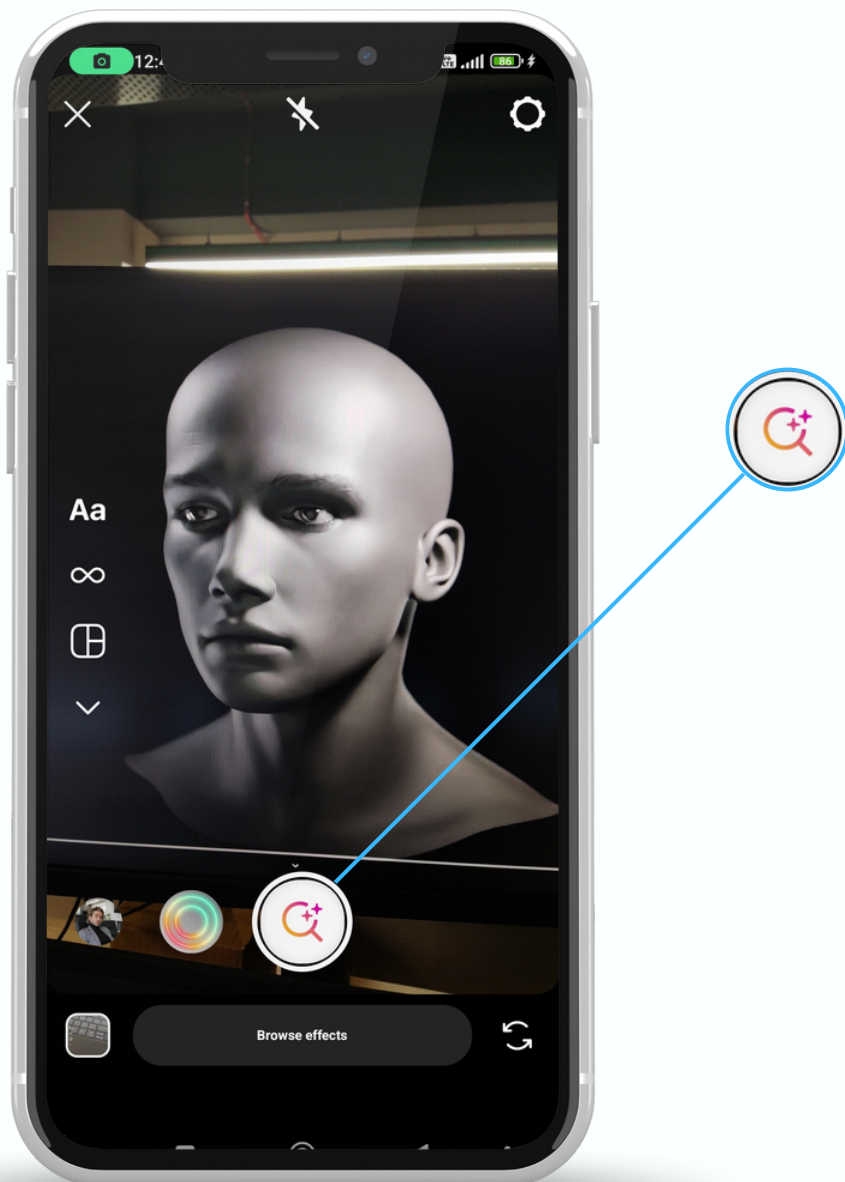

On the camera screen, you'll see a row of filters at the bottom. Swipe left or right to browse through the available filters until you reach the "Browse Effects" option.

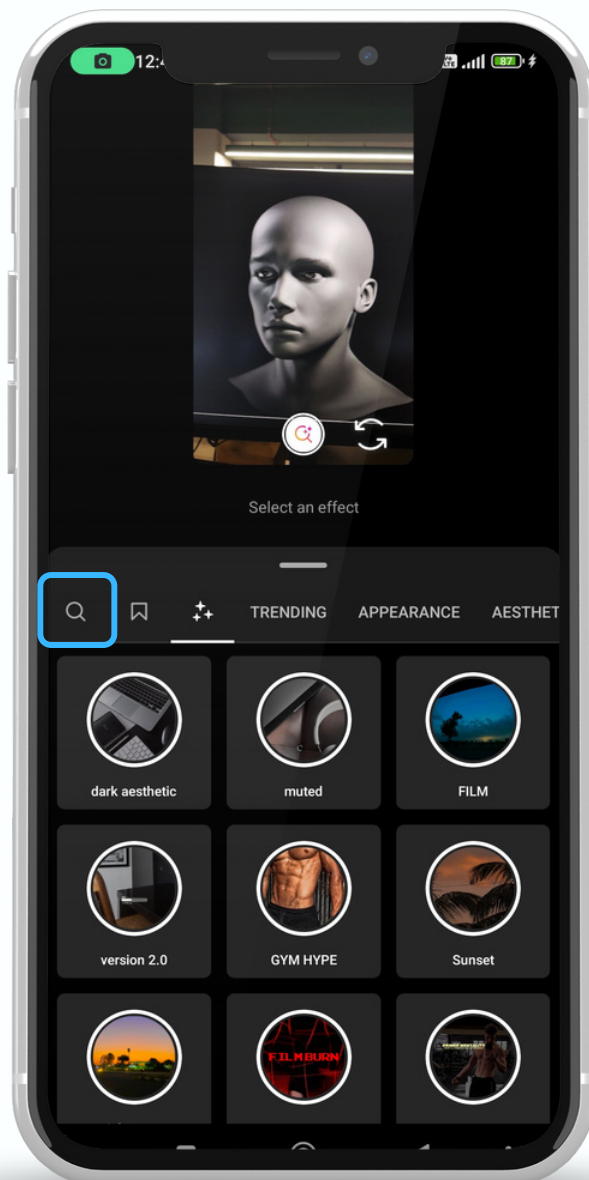

#### Step 4: Find the filter search option

Tap on the magnifying glass icon or the search bar at the top of the "Browse Effects" screen.

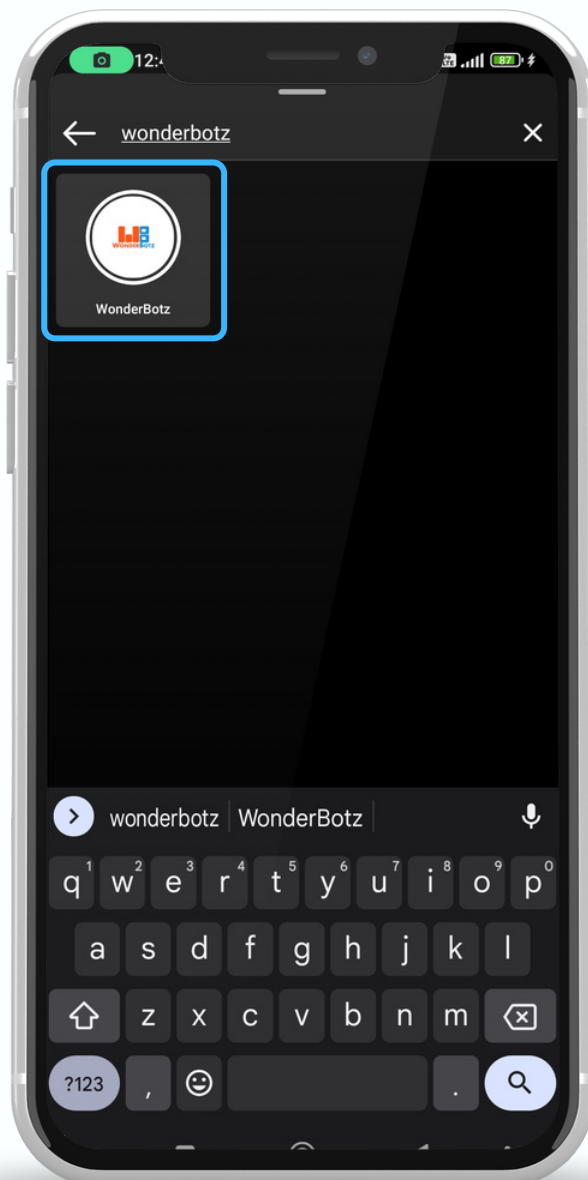

## Step 5: Search for the filter

Enter the name of the custom Instagram filter you want to use in the search bar and tap on the search button i.e. "wonderbotz".

## Step 6: Select the filter

Once you find our custom filter in the search results, tap on it to preview how it looks. You can use the camera button at the bottom to see the filter's effects on your face or in your surroundings.

## Step 7: Use the filter

If you're satisfied with the filter's appearance, tap on the "Save Effect" button at the bottom of the screen. This will add the filter to your Instagram camera.

Return to the camera screen by tapping the back arrow icon. Ensure that the filter carousel is set to the default "Normal" option. Swipe right until you find your custom filter among the available options.

## Step 7: Play the Effect

We've also added a game within this filter. You can tap on the screen then a random question will be shown. You can answer it with your own experience. If you prefer to record a video, press and hold the capture button.

## Apply. Record. Share

After capturing your photo or video, you can apply additional edits, add captions, tag people, or include hashtags if desired. When you're ready to share, tap on the arrow icon at the bottom right corner of the screen to post your creation on your Instagram feed.

We encourage you to share your experience with our custom Instagram filter and engage with us. Tag us in your posts or use a specific hashtag associated with the filter. We'd love to see your creative content!
